SUNBEDS & DAYBEDS

Unwind and recharge

When the sun is high and the sky is blue, it is time to unwind. Enjoy the rays of the sun in a comfortable laid-back position. You deserve an oasis of comfort in your own home.

VISTA

BY CANE-LINE DESIGN

QuickDry & Airflow SYSTEM

The Vista series by Cane-line Design balances contemporary minimalism with the natural warmth of teak. Characterised by pure lines and a simple, sophisticated design, the series creates a serene foundation for refined outdoor living. The tactile quality of the teak softens the simplicity of the form, creating a timeless and inviting expression. Whether in private retreats or exclusive hospitality environments, Vista brings quiet elegance to the surroundings - inviting to pause and unwind.

COVERS

Cane-line outdoor furniture is weather resistant, but changing weather and falling leaves set their marks. Using protective covers save time on cleaning, keeping the furniture looking sharp and prolong their life span. The cover comes in a handy storage bag. Make sure not to cover wet furniture. Dry before covering.

Cane-line covers are made of a strong solution dyed polyester fabric, which protects the furniture during the winter. It is advisable to check covers after heavy falls of rain/snow and remove any water collected on top to ensure that the furniture remains properly covered. For further information please visit www.cane-line.com/collections/outdoor-furniture-covers.

QUICKDRY
& AIRFLOW SYSTEM

Cane-line QuickDry & Airflow system offers cushions with our special QuickDryFoam. The unique cushion composition with QuickDryFoam ensures a quick drainage after heavy rain and an effective air circulation in humid weather conditions. The benefit is dry cushions approximately one hour after downpour and no risk of mould building inside the cushions due to the constant air circulation.

We recommend to store cushions indoors in a ventilated room or in one of our cushion boxes during winter season or when not in use for a longer period. For more information regarding maintenance and cleaning see cane-line.com.

All series with the QuickDry & Airflow system logo include QuickDryFoam. All other cushions are delivered with our high quality Cane-line foam (cold foam).

CUSHION COMPOSITION

Outer cover/fabric
Inner cover/rain cover
Padding
QuickDryFoam

90% of rainwater is repelled, whereas only 10% passes through the cushion

- Approximately one hour after rainshowers your cushions are dry, and you can sit comfortable in your furniture again.
- After a downpour, place the cushions in an upright position so the water can drain.

Teak is a tropical wood material with a beautiful golden brown colour. However, the colour will gain a silver-grey patina over time if not treated.

If you wish to preserve the original golden-brown colour, use Cane-line Teak Protector. A protector that preserves the nice and warm golden-brown colour.

TEAK CARE

Teak Cleaner

A Cleaner & Brightener in one.
To clean and restore discoloured and dark grey teak, this water-based formula is not only a high concentration cleaner, but also a brightener, which brings back the original colour of new teak.

Classified as non-hazardous.

COVERAGE:
m2: 10 - 12
Sq. ft.: 110 - 130
Chairs: 10 - 12
Tables (240 cm. / 80"): 2 or 3
Sofas / Benches (240 cm. / 80"): 3 or 4
Content: 1000 ml.

Teak Protector - Honey brown

Maintain the original honey brown colour for a longer time. Teak protector maintains the golden brown colour for a long time:

- Easy to apply
- Up to 4 times longer than teak-oil
- Up to twice as long as teak sealer.

This protector gives teak a nicer, more natural colour after application

COVERAGE:
m2: 8 - 10
Sq. ft.: 90 - 110
Chairs: 8 - 10
Tables (240 cm. / 80"): 2
Sofas / Benches (240 cm. / 80"): 3
Content: 1000 ml.

Green Scrubbing Pads & Padholder

For cleaning teakwood.

White Application Cloths

For applying protectors.

INDOOR

BLOOM

BY CANE-LINE DESIGN

The Bloom series by Cane-line Design is a masterful reimagination of contemporary indoor luxury. The allure of Bloom lies in its graceful simplicity, yet every element is intricately considered to offer both visual appeal and ultimate comfort. Bloom is a statement piece that adds elegance, transforming your living space into a sanctuary of style and relaxation.

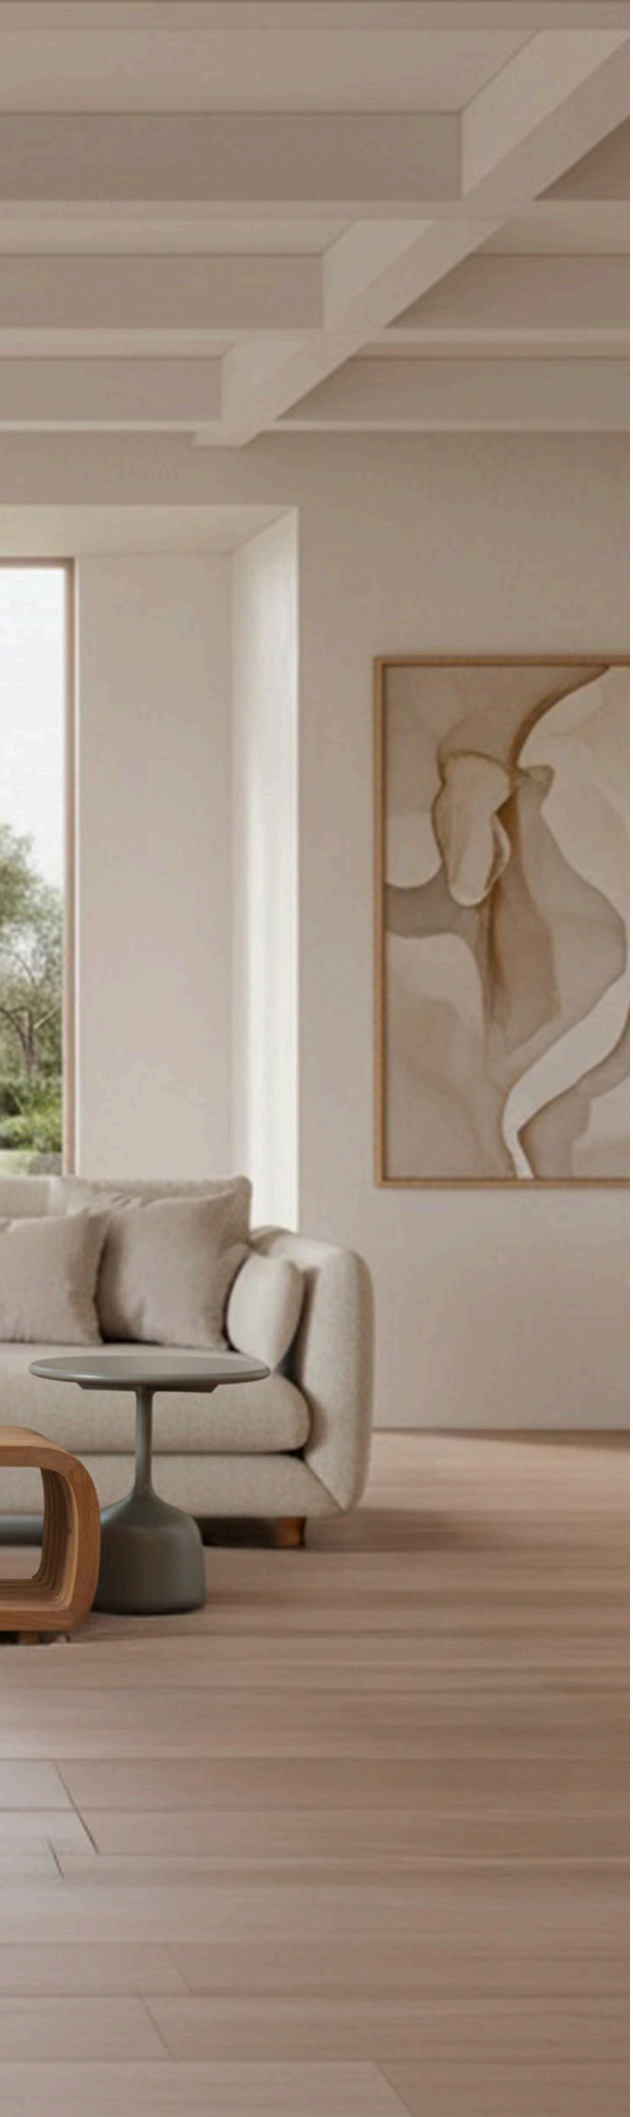

PACE

BY FOERSOM & HIORT-LORENZEN MDD

Experience the essence of relaxation with Pace Lounge, where ergonomic embrace exceptional style and comfort. Where a world of customization options unite to create the perfect sanctuary. Indulge in a level of comfort like no other, tailored to unique preferences.

Partners worldwide

At Cane-line, we experience that accommodating and flexible furniture arrangements are a must for many of our international project partners. Our partners have high demands for quality, comfort and aesthetics. We match these needs by providing customised solutions.

Cane-line furniture is designed for heavy use over longer periods of time, yet still only require minimal of maintenance.

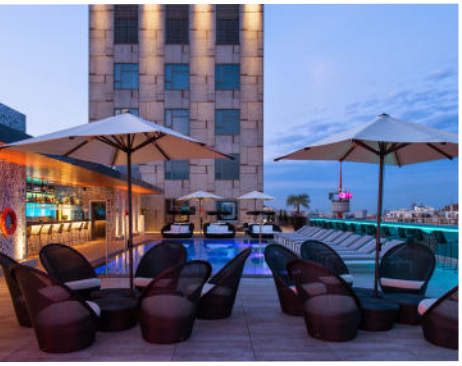

Our designs live up to the brand identity of our project partners and our corporate conduct and operations match international expectations about Corporate Social Responsibility (CSR).
We work with a variety of companies in the public and private sector, institutions, exclusive hotels, cruise lines and resorts.

Materials

Cane-line Natté

Cane-line Natté is a 100% solution dyed acrylic fabric. Cane-line Natté is a unique material produced by Sunbrella for Cane-line. Cane-line Natté combines the strength of normal all weather fabrics with the comfortable softness of the traditional Sunbrella fabrics, resulting in a soft yet durable fabric. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

Cane-line Soft Rope

Cane-line Soft Rope is a weaved Selected PP fibre. The material has a soft surface that acts like a fabric. Avoid pulling/pushing the material too hard as this may cause it to lose its shape. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

Cane-line Weave®

Cane-line Weave® is a fibre made from highly durable, solution dyed polyethylene (PE), which is ideal for outdoor use because it withstands moisture and large variations in temperature. Both the structure of the fibre and the weave ensure elasticity and optimal sitting comfort. The durable material is UV-resistant and requires minimal maintenance. Cane-line Weave® has been developed to withstand climate conditions all over the world and the material will retain its colour and shape for many years. It can vary slightly in colour, creating a nice contrast in the surface of the weave. This gives the furniture a unique, natural and exclusive look.

Selected PP

100% polypropylene (PP) and UV-resistant. In case of food or drink stains, wash the spot immediately with warm soapy water and allow the pillow to dry in an upright position. For more thorough cleaning, all pillow covers can be removed and machine-washed at 30°C. Make sure the cover is completely dry before putting it back on the pillow.

Cane-line AirTouch

Cane-line AirTouch fabric combines the strength of Cane-line SoftTouch with the softness of Cane-line Natté produced by Sunbrella. It is a 100% solution-dyed acrylic fabric. Cushions made from Cane-line AirTouch are produced with a QuickDryFoam® core, ensuring maximum drainage and air circulation. This allows the cushions to dry faster after having been exposed to rain and moisture. The QuickDryFoam® core also has anti-bacterial protection, reducing the risk of mould and mildew forming on the cushion.

Cane-line Virtue

Cane-line Virtue is a 100% solution dyed acrylic fabric. Which is UV-resistant. In case of food or drink stains, wash the spot immediately with warm soapy water and allow the pillow to dry in an upright position. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

Glass

All glass tops are made of thoughened glass. The glass has been through a process, where it has been heated to approx. 650 degrees and then cooled. This curing of the glass makes it up to 5 times stronger than ordinary glass and less prone to cracking and breaking.

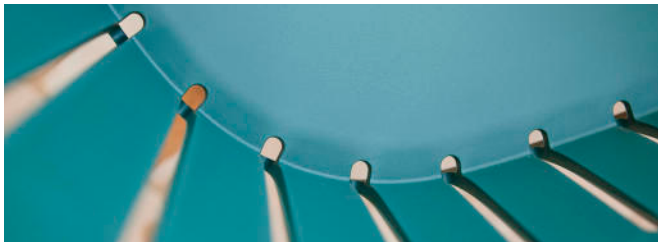

Cane-line Tex®

Cane-line Tex® is a coated polyester material that is ideal for outdoor use and requires minimal maintenance. Cushions made from Cane-line Tex® come with a QuickDryFoam® core, ensuring maximum drainage and air circulation. This allows the cushions to dry faster after having been exposed to rain and moisture. The QuickDryFoam® core also has anti-bacterial protection, reducing the risk of mould and mildew forming on the cushion.

Cane-line Teak

Cane-line teak is approved and forested under the SVLK – Sistem Verifikasi Legalitas Kayu (Indoneasia's timber legality assurance system) certification system. Teak is a hardwood that is ideal for outdoor use due to its high oil content. Our teak material is grade A, meaning it is the best quality and characterised by the close grain and the warm honey golden-brown colour. The wood acquires a silver-grey patina over time. If you wish to retain the original golden-brown colour, we recommend treating teak furniture with a recommended teak protector. See Cane-line care products.

Polypropylene

Polypropylene (PP) is a lightweight, yet strong plastic. It is heat-resistant, ensuring durability for pieces exposed to sunlight or warmth. PP is resistant to many chemicals, making it ideal for home use where it may encounter cleaning products.
Its water-repellent nature also suits outdoor furniture. PP's ability to maintain its shape after bending means that chairs and tables remain stable over time. Furthermore, it's easily recyclable, making it an environmentally conscious choice for sustainable design.

Powder coated hot dip galvanized steel

All our steel furniture is hot-dip galvanized, which by far is the best corrosion protection of steel. Unlike only using paint which adheres to the surface of the steel, the galvanizing creates a hard-wearing and resistant surface with extraordinarily long life and requires only a minimum of maintenance. All our galvanized steel is afterwards powder coated for additional protection and aesthetic purposes.

Stainless Steel

Stainless steel is extremely weatherproof. However, tarnishing can occur in the form of flash rust. This can be removed by using a stainless steel cleaner. Regular cleaning with soapy water helps to protect the surface of the stainless steel and this minimise the effects of chlorine, etc. It is also advisable to wipe the frame with acid-free oil at least twice yearly to minimise tarnishing.

Powder coated aluminium

All our aluminium furniture is powder coated. Powder coating serves as a protective layer that is tinted in a variety of colours. Aluminium furniture is ideal for outdoor as well as indoor use.

Lava stone

Artistic Italian lava stones for table tops. Handmade with double glazing. Each tile and table top is unique and no two look alike. The lava stone is a natural material and small imperfections, such as colour and spots are to be expected.

Ceramic

The ceramic tops are made of porcelain, which is an extremely strong material that can be left outdoors all year round. They are made using natural materials, so there may be small variations in colours between the tops.

Cast Iron

Cast iron from Cane-line is composed of alloy of iron, carbon and silicon, which together provide a material particularly suitable for products that require great strength and heat resistance. Continuous maintenance is important, as otherwise over time, you will see rust formation on the surface in the places where the paint has been scratched and worn. Make sure to regularly remove ash from the fire pit, wash it off in clean water and dry it thoroughly when the items are cold. The product gets hot during use, so do not touch the product without gloves that can withstand the heat, and be aware of local legislation regarding the use of fire pits. Use of the fire pit is at your own risk (both to yourself and others).

HPSDG / high pressure laminate

Compact laminate is a very suitable material for outdoor use. The material is resin-impregnated paper, compressed under very high pressure creating a strong top with a scratch-resistant surface. These table tops require basically no maintenance and can remain outdoors all year round. Compact laminate will naturally fade slightly at the edges over time. In order to maintain the deep black colour, the edges can be re-freshed up by rubbing a little linseed oil on them. It is recommended that you cover the table with a furniture cover in the autumn and winter period.

Cane-line HI-Core

Cane-line "Hi-Core" Stone is an innovative and durable Hi-tech composite core material developed specially for all weather outdoor use. The components are mainly acrylic, which gives high durability and abrasion resistance.
Cane-line HI-Core has an elegant smooth and soft surface that rejects moisture, dirt and bacteria. We recommend that you cover the table with a furniture cover during the autumn and winter period.

Indoor materials

Rattan

Rattan is the rascal of the jungle. Rattan belongs to the palm family. Rattan is a climbing plant, that grows over trees and other plants in the rainforest. There are about 600 species of rattan. Cane-line uses only the best and strongest for furniture production. Cane-line ensures sustainability in relation to the environment and human relationship in a society, which has its roots deeply embedded in rattan. Rattan is only for indoor use. For cleaning and daily maintenance, use a wrung cloth. Once to twice yearly clean with white soap flakes and lukewarm water wiping off extra fluid with a dry cloth.

Oak

Oak is a strong and durable type of wood, perfect for everyday indoor furniture. It boasts a beautiful, natural color palette ranging from light golden to deep brown, and the surface can be treated to customize its appearance. With its unique and varying patterns, oak gives each piece of furniture a personal touch. Furniture made of oak is robust and can last for many years.

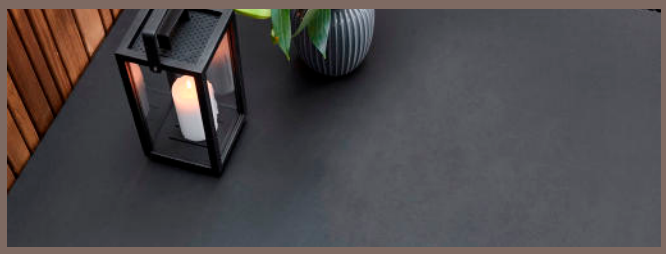

Mahogany

Mahogany is a luxurious and sought-after wood type due to its deep color and fine, smooth finish. This hardwood is known for its durability and ability to withstand wear. Mahogany's grain pattern is typically straight and uniform, providing an elegant and sophisticated look. It is also relatively free of knots, contributing to a clean and polished aesthetic.

Leather

Cane-line leather is a slightly corrected semi-aniline leather with a soft grip, as well as a beautiful natural scar that gives character. The leather is chrome tanned and made without the use of PCP and CFC. All Cane-line leather is stained and for indoor use only. The colours and scarves shown on the leather are for guidance only. There may be colour or scarring differences from the displayed image to the actual skin from which the cushions are made. It is important to care for and clean leather cushions regularly, so that the leather can remain soft and maintain a comfortable sitting comfort. This also prevents the leather from fading or drying. We recommend using a leather care product.

Linoleum

Linoleum is a natural material and consists of linseed oil, cold pressed, to which dyes and various types of fillings are added. It can be resin, lime and cork, stone or wood floor. The material is not scratchproof and only for indoor use. Linoleum is a soft material that is easy to clean with a twisted cloth, and immediately wipe again with a dry cloth. Do not use dishwashing detergent, brown soap, or other ammonia-containing products. In case of stubborn stains, we recommend washing with water and soap chips, which will also leave the table with a surface that is more difficult to absorb abrasion. We recommend using coasters when applying hot pots and bowls on the material.

INDEX

For all items including a cushion,
the seat height includes the cushion.

Collection

At the heart of every Cane-line design you find our core philosophy: "*Life Made Comfortable*". All over the world our mission is to add value to life and spaces for togetherness and relaxation. We are constantly focusing on design, quality, innovative technologies and comfort to ensure that our collection offers maximum comfort and minimal maintenance. Our collection is made with the greatest care for the environment and the well-being of people.

Cane-line is a Danish design company with more than 35 years of experience in designing and manufacturing furniture and accessories.
We believe that great design is responsible design.
