Cane-line®

LIFE MADE COMFORTABLE

A festive feeling

With the 2026 catalogue, we invite you into our world where design and lifestyle merge, where aesthetics and comfort create the foundation for comfortable living.
Our outdoor and indoor collections are designed to inspire memorable moments of presence, togetherness and ease.

The theme for our 2026 news is “A festive feeling”, which comes alive through playful colours, soft curves, organic shapes, glazed ceramics, and textured fabrics.
It is a celebration of joy, creativity, and those moments where everyday life transforms into something extraordinary - whether shared with others or enjoyed alone.

The Cane-line DNA - *Life made comfortable* - is present in every detail. Each design is created with the greatest care for our environment and the well-being of people. We believe that good design is responsible design with longevity.

We hope our 2026 collection brings you a festive feeling and inspires new settings for life’s most memorable moments.

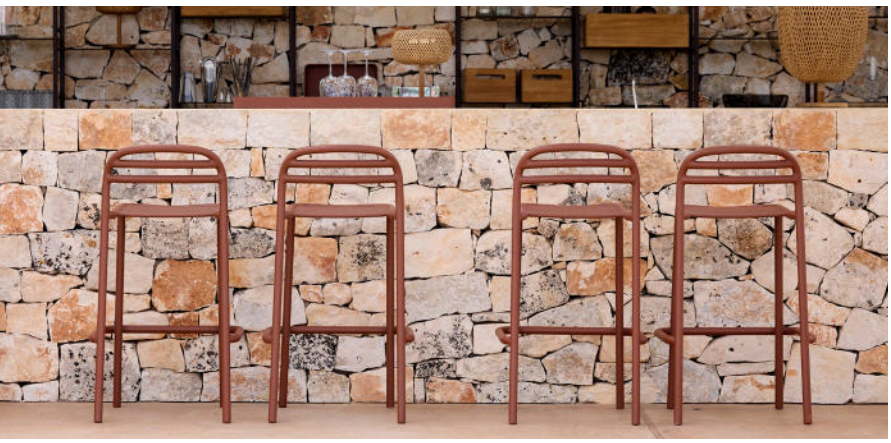

Brian Djernes | CEO, Cane-line A/S

RESPON-SIBILITY

Because we care

Cane-line believes that responsibility goes beyond the design and production of furniture. We are committed to a healthy environmental policy and an ongoing focus on minimizing our societal and environmental impact.

Responsibility and environmental awareness are part of Cane-line's values, and therefore implemented as a natural part of our company for many years. As we acquire more knowledge and awareness on our environmental footprint, we continue to work and improve all aspects of our production in a more responsible direction.

Each product in our assortment is produced with care and respect. Responsibility is embedded in every stage of our company, from design process, choice of material and production process to the end stage after many years of use. We believe that great design is responsible design.
The ISO14001 certification, SMETA audition, and our engagement in the Sustainable Development Goals express our dedication.

Scan QR or read more about our principles on cane-line.com

Cane-line is certified by the international certification DNV (Det Norske Veritas): ISO14001:2015.

Cane-line teak is approved and forested under the SVLK – Sistem Verifikasi Legalitas Kayu (Indoneasia's timber legality assurance system) certification system.

As a manufacturer of furniture, we believe our greatest impact comes from addressing UN Sustainable Development goals no. 8 and 12. To us, the SDGs make us even more motivated to work towards a more responsible business.

All products with the QuickDry & Airflow system symbol have cushions with QuickDryFoam.

Meet our

DESIGNERS

Foersom & Hiort-Lorenzen MDD

Johannes Foersom and Peter Hiort-Lorenzen MDD are two of Scandinavia's most renowned and successful furniture designers. Their goal is to create long-lasting value, and to stimulate a healthy development for people and their surroundings. They strive towards the highest quality in co-operation, process and product, and believe that knowledge and innovation are fundamental. The impressive use of exibility makes the furniture appear as small architectonic wonders.

Welling/Ludvik

The design duo Welling/Ludvik, Hee Welling and Gudmundur Ludvik, are contributing to the renewal of environmentally-friendly design centered around personal experience. They are defined by a pure aesthetic, stripping away excess and letting each detail serve a functional purpose. They aim to achieve the best possible solution as seen from a number of perspectives. Comfort, materials, construction, pricing and environment are all defining factors in their approach to design.

Strand+Hvass

Christina Strand (MDD) and Niels Hvass (MAA) believe that design itself is a strategy that can improve the conditions of human life, the environment and personal experiences. Additionally, they believe that design can be used as a tool to develop the competitive power and economic growth of society. Their design is user-centered and deeply rooted in the Scandinavian culture. Simplicity and well-balanced lines are the cornerstones of their work.

Søren Rose Studio

Søren Rose Studio is well-known for his minimalistic, Scandinavian style with strings into a modern and cosmopolitan expression.
The location of the design studio in New York is a source of inspiration to a raw design style that goes aesthetically well in line with the Scandinavian design tradition. The combination has been refined by the design studio through its many years of existence on the international design scene.

byKATO

ByKATO, Karl Rüdiger Rossell and Tonny Glismand, are dedicated to creating contemporary, highly usable products for everyday living. They aim to bridge the gap between commercial, industrial design and high-quality craftsmanship by using honest and justifiable materials and paying careful attention to even the smallest detail. Their mantra is to design products, which they would like to have themselves so they always take starting point in their own needs. In this way it all comes from the heart and the required enthusiasm is always present.

Cane-line Design

At Cane-line the core value for good design is comfort and we believe in the optimal mix between comfort, aesthetics and functionality. Our internal design team is working with this in top of mind to create an optimal collection with unique products adding value to life and making life more comfortable. Cane-line design team is also working closely with our external designers.

GEM

BY FOERSOM & HIORT-LORENZEN MDD

QuickDry & Airflow SYSTEM

Gem by Foersom & Hiort-Lorenzen MDD brings a soft expression to modern lounging. Defined by soft shapes, 360 degrees movement, and a strong sense of comfort, the series captures a refined balance between contemporary design and functional elegance.
Gem creates a natural focal point for relaxation and socialising — inviting to slow down, gather, and enjoy wonderful moments outdoors.

QuickDry & Airflow SYSTEM

AL DENTE

BY CANE-LINE DESIGN

QuickDry & Airflow SYSTEM

Al Dente by Cane-line Design is a playful and refined series, where visual lightness meets strong structural design.
With slim, spaghetti-like strands delicately woven, the series creates both texture and transparency – a nod to classic craftsmanship, reimagined with a contemporary twist.
The contrast between the refined string weave and the solid, powder-coated aluminium brings a dynamic balance between softness and strength.
Perfect for outdoor spaces, the Al Dente series is as inviting as it is expressive – a celebration of simplicity, comfort, and character in every line.

BLISS

BY FOERSOM & HIORT-LORENZEN MDD

QuickDry & Airflow SYSTEM

The Bliss series by Foersom & Hiort-Lorenzen MDD is a celebration of minimalist design. This series, made from durable powder-coated aluminium, offers a modern and urban design that flawlessly integrates into outdoor as well as indoor spaces. Its low-maintenance and lightweight construction make Bliss easy to move, adjust and style, while also ensuring that it stays beautiful and timeless for many years. The selection of colours makes it possible to enhance any outdoor space, from cafés and restaurants to terraces and balconies.
Bliss – designed for togetherness and enjoyment.

STICKS

BY CANE-LINE DESIGN

QuickDry & Airflow SYSTEM

Inspired by a stick construction, the Sticks series showcases an elegant and unique look.
Sticks is an inclusive and versatile series, making it possible to create a complete look in your outdoor space. With either a rustic, natural style or a more modern, minimalistic expression, Sticks inspires you to rethink your outdoor haven.

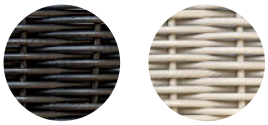

KINGSTON

BY FOERSOM & HIORT-LORENZEN MDD
